## TECHNICAL SPECIFICATION

CPU	400MHz Atmel CPU
-----	------------------

Memory	1GB DDR2 SDRAM
--------	----------------

Storage	2GB NAND Memory
---------	-----------------

Protection	IP53, Weatherproof
------------	--------------------

Operating Temperature	30oc ~ +70oc
-----------------------	--------------

Operating Voltage	220Vx (1+55%) Wide Voltage ,47-67Hz
-------------------	-------------------------------------

Communication	RS232, TCP/IP 10/100M
---------------	-----------------------

Display	4X20 Character or 7" TFT LCD Full Color
---------	---

Intercom	Analog or VoIP
----------	----------------

Camera	Support Pin Hole Camera
--------	-------------------------

Ticket	MIFARE or barcode ticket
--------	--------------------------

Ticket dispenser	MIFARE ticket dispenser: Speed > 1pcs/s, 500 pcs ticket load
------------------	--

	Barcode ticket printer: Speed >1pcs/s , 1D Barcode , 200 DPI, 5000 pcs ticket load (1 carton)
--	---

Ticket acceptor	Speed > 1pcs/s
-----------------	----------------

Season card Reader	Read/Write, Support MIFARE Card ISO14443 TYPE A & B
--------------------	---

TnG Reader	Read/Write, Support TnG Compliance Cards
------------	--

Optional	2D QR Code Scanner
----------	--------------------

	IUC180b bank/credit card reader
--	---------------------------------
